

TIP SHEET FOR NONPROFIT SUPPORTERS

COVID-19 Stimulus Package/ CARES Act

Updated as of April 30, 2020

.....

The **Coronavirus Aid, Relief, and Economic Security (CARES) Act** became law on March 27, 2020; a \$2 trillion economic stimulus package to provide immediate relief for taxpayers and nonprofits.

By including expanded charitable giving incentives, Congress is acknowledging and endorsing the critical work of nonprofits as essential services. It is the first time Congress has passed this type of giving incentive in response to a disaster or national emergency.

.....

3 Key Aspects of CARES Act for Individual Taxpayers

New Deduction Available: A charitable deduction of up to \$300 is available to those who take the standard deduction (taxpayers who do not itemize their deductions). This new deduction is an “above the line” adjustment to income that will reduce a taxpayer’s adjusted gross income (AGI) and reduce their taxable income.

To qualify, you would have to give a donation to a qualified charity. If you have already made a donation since January 1, that contribution counts toward the \$300 cap. A donation to a donor-advised fund (DAF) does not qualify for this new deduction.

New Charitable Deduction Limits: The CARES Act allows individuals who itemize deductions to deduct much greater amounts of their contributions. Taxpayers can elect to deduct donations up to 100% of their 2020 AGI (up from 60% previously). The new deduction is only for cash gifts that go to a public charity.

The old deduction rules apply for donations to a DAF or private foundation. The new limits also do not apply to gifts of appreciated stock.

If your donations are substantial enough that you give more than your income this year, you won’t lose the deduction for the excess amount. You can use it next year, as has always been the case.

Corporations can also deduct higher amounts for cash gifts to public charities. They may deduct up to 25% of taxable income, up from the previous limit of 10%.

Required Minimum Distributions Waived in 2020 for Most: Required minimum distributions (RMD) for individuals over age 72 are suspended until 2021. This includes distributions that are typically required from traditional IRAs, defined benefit pension plans and 457 plans.

Account owners over age 70½ can make a significant charitable gift by giving directly from an IRA to a charity through a qualified charitable distribution (QCD) and avoid taxable income. Making a QCD will allow itemizers and non-itemizers alike to direct up to \$100,000 from their IRA to charities in a tax efficient manner.
